

Xepa Technologies XP8ML Lights with Motion Detection

Introduction:

Thank you for purchasing Xepa Technologies XP8ML, the next-generation utility lights that features 8 super bright LEDs and a convenient energy-saving motion detection and light sensing system.

What's Inside the Package:

XP8ML lights (1) Screws (2)
AA batteries (4) Plastic Anchors (2)
User Manual

Installation:

Remove battery cover and place four AA batteries into the compartment with correct polarity. Replace cover.

Mark two holes on the wall vertically 3-1/16" apart.

Drill holes using a 1/8" drill bit. Insert plastic anchors into holes until flush with wall. Screw into anchors leaving a 1/4" gap between the screw head and the wall.

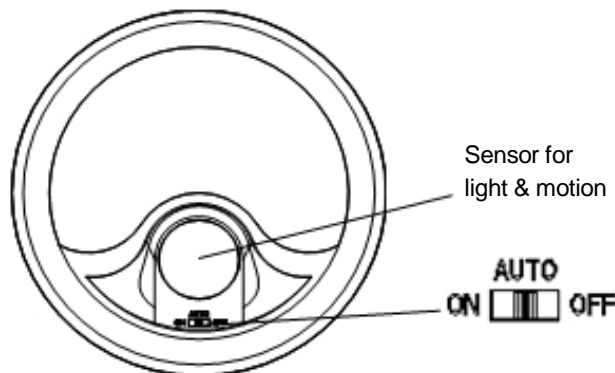

Place light over screws and slide downward to secure.

Specifications:

Power supply: 4 AA batteries; 1.5 VDC
Sensor range: 15 ft. max.; Sensor coverage:
120°
Operating temperature: 14~86°F

Operation:

- Switch to "AUTO" (normal operation) to activate the light ONLY WHEN IT IS DARK AND MOTION IS DETECTED. The light will automatically turn off 25s~30s after motion stops.
- Switch to "ON" for continuous illumination.
- Switch to "OFF" to turn off completely.

For Best Results:

The light should not be located near an area where air temperature may change rapidly such as near an air conditioner or heater. Rapid changes in temperature may cause the motion detection system to produce false triggers and illuminate the light needlessly, which could shorten battery life. Do not place objects or obstruct the area in front of the motion sensor. This could prevent the motion sensor from functioning properly.

90-Day Limited Warranty

Xepa Technologies warrants this product against defects in material or workmanship for a period of 90 days from the date of original purchase. During this period, Xepa Technologies will replace a defective part with a new or refurbished part without charge to you. It is your responsibility to retain original packaging or provide like packaging in order to facilitate the warranty process. The consumer is responsible for the transportation cost to Xepa Technologies. You must receive a return authorization number (RA#) before sending a unit in for service.

To Obtain Warranty Service

Should it be necessary to contact Customer Support, call (866) 427- 3946. You will be instructed on how your claim will be processed. Have pertinent information available including proof of purchase and an understanding of the complaint.

You must retain the original bill of sale to provide proof of purchase. Call a customer support representative to assess the problem. No service or shipment will be accepted unless an RA# is provided to you and attached or printed to the shipping carton along with a copy of the bill of sale. These warranties are effective only if the product was purchased through an Authorized Retail Seller. You are responsible for all tariffs and taxes imposed to ship or receive warranty or replacement units to and from the U.S. Warranties extend only to defects in materials or workmanship and do not extend to any other products that have been lost, discarded or damaged by misuse, accident, neglect, acts of God, improper installation, improper maintenance or modification. Warranties do not cover cosmetic damage or batteries. This warranty gives you specific rights and you may also have these rights that may vary from state to state. Some states do not allow limitation on how long the warranty lasts or exclusions or limitation of incidental or consequential damages, so the above may not apply to you.
